What we currently can and can’t control

**CAN’T**
- Doctor Supply and Practice Capacity
- Competency and skill level consistency
- Timely issuing of provider number

**CAN**
- Delivery of good quality education via high quality accredited practices
- Responsive and timely support to Junior Doctors and Supervisors
- High quality delivery of education and administrative support
Brainstorming in groups for other commonalities and challenges, shared successful strategies and identifying areas where joining forces may serve to improve outcomes. (pieces to the puzzle)

Sharing of each group’s outcomes within the forum.

Collating of information, findings and discussions with a view to formulating an action plan (may be RTP specific or identify joint needs)
