# The Ideas

## The Law of Two Feet

### *Open Space Technology*

If people find themselves in situations where they are neither learning anything nor contributing, they are responsible for moving to another place -- using their two feet to find a place where their participation is more meaningful.

# Team captain

- the person who feels a burning passion for the subject and is willing to take responsibility to call the conversation, invite others in and make sure something gets harvested.

# The participants

Anyone who is drawn to a conversation, wants to stay the whole time, and participate fully.

**Bumble bee:** The ones who move from conversation to conversation cross-pollinating the learning

**Butterfly:** A butterfly may not want to be in any conversation, instead they prefer to sit on the lawn and look beautiful. A new, unexpected conversation may happen when two butterflies meet.
