

Sway (CCCT's way)

Lyrics by Sharon Flynn Artists: The CCCT Team

When GP Training terms start today
Be with us make us say
We feel great about CCC
Supervising and teaching me

Like a flower bending in the breeze
Bend your mind, learn with ease
When we teach you'll make a great GP
Don't say no, say CCC

Other RTPs may be on the floor
Dear but our eyes will see only you
We can teach you consulting technique
Even if you're a geek

We can picture lots of smiles and grins
Long before exams begin
Asthma, Diabetes, you'll know how
Have confidence – believe it now

Musical interlude

Other RTPs may be on the floor
Dear but our eyes will see only you
If you don't even know where to start
Just learn Murtagh by heart

We can picture lots of smiles and grins
Long before exams begin,
Diagnosis just like diarrhoea,
But in your gnosis, instead of your rear
When GP Training terms start today
Come with me, we'll make you say

I feel great about CCC
Supervising and teaching me
Tempo/key change

Like a flower bending in the breeze
Bend your mind, learn with ease
When we teach you'll make a great GP
Don't say no, say CCC,

Salpingitis, Hepatitis
Snotty kid's conjunctivitis
Learn to treat Meningitis
Even plantar fasciitis

Like a flower bending in the breeze
Bend your mind, learn with ease
When we teach you'll make a great GP
Don't say no, say CCC, (All) CCC!
